- Clarity #1: Are Exhibits A, B, C, and D excluded from the 50-page limit?
 - **YES, they are excluded from the 50-page limit but MUST be included within the packet of your proposal.**
- Correction # 2: In reference to Exhibit D form: A company would like to modify Exhibit D to include a percentage-based fee with the detail of services included in the proposal.
 - **Correction #3: A company wanting to submit a percentage fee amount can do so by including what services are included in the percentage fee break down. The company must include all services with the percentage on a formal proposal that must be included in the bid proposal. This means Exhibit D will not be included in the proposal.**
- Correction # 3: The project delivery method shown on the RFQ is Construction Manager at Risk. Exhibit D at the top states (Design/Bid/Build Project).
 - **Correction 4: Wilcox County wishes to pursue a Construction Manager at Risk. Please exclude and ignore design, bid, build.**
- Clarity #2: Should the fee proposal be submitted in the sealed package within a separate sealed envelope?
 - **Proposals must be submitted in the same seal package as the rest of the documentation.**
- Clarity #3: The RFP says to submit 10 copies of your proposal. Does that mean 1 original and 9 copies?
 - **YES 1 of the 10 copies should be an original with the other 9 as copies.**

- Clarity: Has a site been selected for the jail project and if so, may we have the property ID number or address?
 - **No jail site has been selected at this time.**
- Clarity: Has a survey been completed by the County of the potential site and if so, may we have a copy or the name of the firm that completed the survey?
 - **No jail site has been selected at this time.**
- Clarity: Has a civil engineer done any work on the site and if so, may we have the name of that firm?
 - **No civil engineer has been involved related to the future jail site.**
- Clarity: Does the site have utilities such as water and sewer and do you know if it has proper capacity?
 - **No site has been selected at this time but this will be considered when selecting a site.**
- Clarity: Has it been determined if the 30 beds will be dorm style or lock-down or a combination.
 - **This will be determined once the awarded vendor comes on and the county weighs it option.**
- Clarity: Has the county enlisted the services of any 3rd party representative to manage this project on behalf of the county and if so, who has been selected?
 - **No 3rd party representative has been selected for any duties related to the future jail construction.**
- Clarity: What do you mean by 30 individual jail cells complex compacity. Do you mean 30 single cells?
 - **The 30 individual jail complex represents a starting point which doubles the spaces we currently use. The scope of the facility capacity will ultimately come down to future conversations and considerations once a design firm is established.**
- Clarity: Is USDA the only source of funding for this project? If other sources please let us know what they are?
 - **USDA is not the only source of funding for this project. The citizens of Wilcox County recently voted for a renewal of the special local option sales tax with a large portion going into the new jail facility. The local SPLOST only raises a smaller portion of what we expect the project to cost.**
- Clarity: Does the county have the funding in hand or will fund raising be part of this process?
 - **The county has been collecting the existing penny tax for about a two-year period by this point. The county will explore all avenues of funding sources so this project becomes a reality.**
- Clarity: If they do have it in hand, how much is in hand currently?
 - **The county has been collecting on this project for over two years by this point. The project has a budget in the 2024 SPLOST to generate one million and two hundred and sixty thousand dollars.**
