**Workers’ Compensation Proposals (ACCG & Fiveash Agency)**

Chairman Handley opened the first item of business regarding the selection of a workers’ compensation insurance proposal between ACCG in the amount of \$106,174.00 and Fiveash Agency in the amount of \$82,288.00. County Manager Michael Pomirko provided a brief history of the County’s current coverage and explained the pros and cons of remaining with the current provider versus changing coverage. He discussed past claims that have contributed to increased costs in certain areas, noting challenges faced by several departments over recent years. He also highlighted the implementation of improved safety procedures, which have resulted in savings.

Mr. Pomirko explained that participation in the ACCG program since 1986 has resulted in dividend credits, with the current proposal reflecting a dividend of \$13,585.00. He also noted the County’s receipt of \$2,500.00 safety grants in multiple years to offset safety-related expenses. Commissioners questioned Brent Peebles regarding the differences between a pooled insurance program and traditional insurance focused solely on Wilcox County. Mr. Peebles discussed both advantages and disadvantages of a pooled program. Mr. Pomirko further explained that claims history directly impacts premium increases.
